## PROFESSIONAL SUMMARY

Frontend developer with 5+ years of experience building scalable, multi-tenant web applications using React, Next.js, and TypeScript. Proven track record of delivering full-stack solutions as both a solo developer and a team lead, with expertise in translating Figma designs into high-fidelity, responsive interfaces. Skilled in cross-functional collaboration, Agile workflows, and performance optimization across enterprise platforms serving thousands of users.

## TECHNICAL SKILLS

<b>Languages</b>	TypeScript, JavaScript (ES6+), Dart, HTML5, CSS3/SASS
<b>Frameworks</b>	Next.js, React, Svelte, SvelteKit, Flutter, Angular
<b>State &amp; Data</b>	Redux, Context API, REST APIs
<b>Styling</b>	Tailwind CSS, Styled Components, shadcn/ui, CSS Modules
<b>Testing</b>	Jest, React Testing Library, Cypress (basic)
<b>Tools</b>	Git, Vercel, Firebase, Linux (Ubuntu), Docker (basic)
<b>Design</b>	Figma (design-to-code), responsive design, accessibility (a11y)
<b>Methods</b>	Agile/Scrum, code review, cross-functional collaboration

## PROFESSIONAL EXPERIENCE

### Senior Frontend Developer @ Nass Al-Iraq Holding

Jul 2024 - Present | Hybrid

- Architected and delivered multiple full-stack projects in Next.js as a solo developer, building reusable component libraries to accelerate development across projects
- Led frontend development on key initiatives, mentoring junior developers and establishing coding standards and best practices for the team
- Translated Figma designs into pixel-perfect, responsive interfaces, ensuring design consistency across all screen sizes and browsers
- Built interactive dashboards with real-time data visualization, improving data accessibility and replacing manual reporting workflows
- Collaborated with backend teams to integrate RESTful APIs and optimize page load performance and overall system responsiveness
- Proactively identified and resolved technical blockers across projects, streamlining development workflows and improving deployment reliability

### Frontend & Mobile Developer @ Voxe

Dec 2023 - Jul 2024 | Hybrid

- Developed and maintained multiple client-facing websites using React and Svelte, delivering responsive, SEO-optimized interfaces
- Built and shipped a cross-platform mobile application using Flutter for company operations
- Designed and implemented admin dashboards with complex data tables, filters, and role-based access control

### Frontend & Mobile Developer @ Binavate

Sep 2022 - Mar 2023 | Remote

- Single-handedly built the SkillVibe mobile app from inception to production using Flutter, serving a multi-tenant employee training platform for multiple companies

- Collaborated with a web development team to build the SkillVibe website and admin dashboard in Next.js, delivering on schedule
- Implemented responsive UI components and state management patterns that were adopted as the team standard

## Frontend Developer @ Enjaz

Jan 2020 – Jan 2021 | Baghdad, Iraq

- Developed a University Information System (UIS) during COVID-19, a multi-tenant platform enabling remote learning for multiple universities with modules for student management, LMS, and administration
- Built an Enterprise Resource Planning (ERP) system for organizational management, implementing modules including HR, payroll, attendance tracking, and workflow automation
- Managed client relationships across the project lifecycle, collecting feedback at each milestone and directly resolving concerns to ensure on-time delivery
- Conducted code reviews and debugging sessions, identifying and correcting issues to maintain code quality

## KEY PROJECTS

---

**Dhaman for Projects** — [project.rss.gov.iq](http://project.rss.gov.iq) | Digital assurance platform for government project management

**Dhaman ERP** | Enterprise resource planning system with HR, financial, and operational modules

**MOE Najah** — [najah.iq](http://najah.iq) | Ministry of Education platform for displaying Baccalaureate exam results (9th & 12th grade)

**Kimadia MTS** | Pharmaceutical tracking and distribution system

**IEEX** — [ieex.io](http://ieex.io) | Iraq Education Exhibition & Conference website

**Zaeem** — [www.zaeem.iq](http://www.zaeem.iq) | Express delivery platform

**Gilgamesh University** — [www.gu.edu.iq](http://www.gu.edu.iq) | University institutional website

**HandyDialog** — [www.handydialog.at](http://www.handydialog.at) | Austrian service platform

## OPEN SOURCE / NPM PACKAGES

---

**jspdf-autotable-rtl** — [www.npmjs.com/package/jspdf-autotable-rtl](http://www.npmjs.com/package/jspdf-autotable-rtl) | Fork of jspdf-autotable adding RTL support for Arabic/Hebrew PDF table generation

**jspdf-with-html2canvas-pro** — [www.npmjs.com/package/jspdf-with-html2canvas-pro](http://www.npmjs.com/package/jspdf-with-html2canvas-pro) | Fork of jsPDF using html2canvas-pro to support modern CSS color functions like oklch

**jspdf-utils** — [www.npmjs.com/package/jspdf-utils](http://www.npmjs.com/package/jspdf-utils) | Utility library simplifying common jsPDF and html2canvas workflows

## EDUCATION

---

### Bachelor of Engineering in Biomedical Engineering

Al Nahrain University, Baghdad, Iraq | 2017 – 2022

## CERTIFICATIONS

---

**Web50x** — Harvard University / Computiq Company [View Certificate](#)
